

OJAS CHOPADE

PROFILE

Associate SDET with hands-on experience in automation testing, framework design, and web application testing. Proficient in Selenium, Java, TestNG, and Jenkins, with strong problem-solving skills and real-world project exposure. Experienced in handling end-to-end automation, release support, and Agile-based testing workflows.

EXPERIENCE

Associate SDET

Zucitech Software Solutions, Bangalore | Jun 2024 – Present

- Worked on **Disney+ Web Automation** Testing, ensuring seamless player experience.
- Handled **Jira tickets** for player failures, bug tracking, and issue resolution.
- Created **test plans** for automated and backlog test cases, improving test coverage.
- Supported and part of **weekly and major releases** (Disney flagship, UFC PPV, Nav brand, ESPN on Disney).
- Managed automation **pipelines across 13 regions**, monitoring execution and stability.
- **Tools:** Java, Selenium, TestNG, Jenkins, Zebrunner, Report Portal, Jira Kanban, GitHub.

Training Project

Zucitech Software Solutions, Bangalore | Jun 2024

- Designed and implemented a **Salesforce automation framework** from scratch.
- Used POM, Maven, Java, Jenkins for framework scalability and **CI/CD integration**.
- Performed end-to-end website testing during training.
- Framework was later adopted for **internal testing** purposes.

SKILLS

Core Java:

- Strong knowledge of **OOP concepts** (inheritance, polymorphism, abstraction, encapsulation).
- Proficient in **method overloading, overriding, upcasting, downcasting**.
- Hands-on coding experience in IntelliJ.

COURSE

SDET

Qspiders
Bangalore, India

Successfully completed SDET training at Qspiders, covering automation testing, core Java, manual testing, Oracle SQL, and API testing

LANGUAGES

- English
- Hindi
- Kannada
- Marathi

Automation (Selenium, TestNG):

- Designed and executed **automation frameworks** (POM, Data-Driven).
- Skilled in **handling locators, synchronization, popups, frames, and UI interactions**.
- Experience with hybrid frameworks and **CI/CD integration** (Jenkins, GitHub).
- Test planning, execution, and reporting using **TestNG, Zebrunner, Report Portal**.

Manual Testing:

- Strong understanding of SDLC, STLC, Agile methodology.
- Experience in smoke, functional, integration, system, usability, compatibility, ad hoc, and I18N testing.
- Skilled in test case creation, execution, and defect lifecycle management (Jira).
- Detailed knowledge of **defect tracking** and the **defect lifecycle**

SQL :

- Proficient in queries, joins (inner, outer, full, self), subqueries, and functions.
- Experienced with DDL, DML, DQL, TCL, DCL statements.
- Written 400–500 queries across RDBMS concepts and normalization.

PROJECTS

DemoWebShop (E-commerce Web Application)

- Automated test cases using Selenium and Eclipse.
- Implemented a hybrid framework (Data-Driven + POM).
- Ensured efficient test automation for functional validation.

Shoppers Stack (E-commerce Platform)

- Identified and documented test scenarios & cases.
- Executed tests and managed defects using Jira.
